VILLAGE IS CAPTURED

**Combles In Dangerous Salient
Threatened by French
Forces—British Situation
Unchanged—Joint Ad-
vance by French and
Serbs in Macedonia.**

(Associated Press Telegram)
London, Sept. 13.—Instead of resting on the ground won in yesterday's great attack north of the Somme the French continued their thrust last night, capturing the village of Bouchavesnes, and a wooded area nearby.

Bouchavesnes lies east of the Bapaume-Peronne road, out in yesterday's drive and its capture with adjacent territory apparently clinches French possession of this main highway to Peronne.

Combles is now cut off from the south and in a dangerous salient, while General Foch is in a favorable position for a stroke from the north at Peronne, which appears seriously threatened by the new French advance, one of the most important in any single operation since the Somme offensive began.

The British, who hold the line northwest of Combles, are maintaining a firm grip on Ghinchy but as yet apparently have made no attempt to gain further ground to the east. London today reporting the general situation unchanged.

In Macedonia, the entente offensive is developing along the western sector. Athens announces a joint advance by French and Serbian troops who have captured Sorovitz near Florina, while Paris reports important progress, particularly a considerable gain by the Serbs near Lake Ostrovo.

The Zaimis cabinet in Greece is out of office with the acceptance of resignations by King Constantine. This is regarded in many quarters as preliminary to Greece's abandonment of neutrality and her entrance into the war on the side of the entente.

The German war office declares the operations against the Rumanians in southern Dobruja province are proceeding methodically. It also announces that German troops have been sent into Transylvania where they are in contact with the Rumanians who have advanced in the Hermannstadt and Hoeting districts.

Today's French official statements report that Italian troops are actively engaged along the Macedonian front in the Balkans. They are operating west of the Struma, near Bulkovia.

Berlin does not admit the successes in the Carpathians claimed yesterday by the Russians.

On the contrary it declares the Russian attack, made along a wide front, was brilliantly repulsed. Petrograd today reports that the heights taken by the Russian troops were successfully held against counter-attacks.

MEXICAN TAX ON MINES NOT CONFISCATORY

(Associated Press Telegram)
New London, Conn., Sept. 13.—The Mexican members of the joint international commission assured their American conferees today that the recent decrees by General Carranza fixing the taxation on mining properties in Mexico, were not intended to be confiscatory in any sense.

Today the commissioners devoted their attention almost exclusively to a study of the effect on American owned properties in Mexico.

EPIDEMIC DECREASING.
[Associated Press Correspondence]
New York, Sept. 13.—There was a decided decrease in the epidemic of infantile paralysis during the 24 hours ending at 10 a. m. today. There were only 9 deaths, one-half of yesterday's toll, and 31 new cases, seven fewer than yesterday.

CARLSON NOMINATED.
Denver, Colo., Sept. 13.—On the face of returns received today Geo. A. Carlson, governor of Colorado, was nominated by the Republicans in yesterday's primary as a candidate to succeed himself.

T. & O. C. TRAIN HITS OPEN SWITCH AT THURSTON, O.

(Special to The Advocate)
Thurston, Sept. 13.—T. & O. C. passenger train No. 6, south bound, ran into an open switch here last night, crashing into the rear end of another passenger train on the side track. One coach of the sidetracked train was badly damaged. A boy standing nearby was cut by flying glass but not seriously injured.

Train No. 6 was slowing down to stop at the station when the accident occurred and this fact probably prevented loss of life or serious injuries to passengers and train crew.

COMMANDER OF TURKISH TROOPS JOINS GERMANS.

(Associated Press Telegram)
Berlin, Sept. 13.—(By wireless to Saville.)—The arrival at German headquarters of Enver Pasha, the Turkish minister of war and commander of the Turkish armies, are reported by the Overseas News Agency. Emperor William assigned him to quarters with the Turkish guards, the agency adds.

PRESIDENT

RETURNS TO SUMMER WHITE HOUSE ON THE NAVAL YACHT MAYFLOWER.

Sister's Condition Remains Unchanged and Mr. Wilson Arranges to Receive Bulletin.

(Associated Press Telegram)
New London, Sept. 13.—The naval yacht Mayflower with President Wilson aboard steamed out of the harbor at six o'clock this morning. The Mayflower will take the President to Sandy Hook, where an automobile will be waiting to take him to the summer White House at Long Branch about five o'clock this afternoon.

The President decided to leave New London last night after physicians attending his sister, Mrs. Anne E. Howe, whose critical illness brought him that from now on Mrs. Howe would be constantly under the influence of opiates and would be unable to recognize him and that she might live for several days.

The President left directions that during his journey to Sandy Hook he be kept informed of his sister's condition by wireless. Should there be a sudden turn for the worse, he plans to return.

The President did not come ashore before leaving this morning but received word that Mrs. Howe's condition was about the same. Joseph Wilson, of Baltimore, his brother, and Miss Margaret Wilson, his daughter, remained here but joined with the attending physicians in urging the President to leave. The president has an accumulation of official business awaiting him at Shadow Lawn and in order to attend to it he probably will go to the executive offices at Asbury Park, N. J., tomorrow.

Up to the present Mr. Wilson has paid practically no attention to his campaign for re-election but unless he is summoned back here within the next few days he will hold several political conferences later this week. Both Vance McCormick, chairman of the Democratic national committee, and Homer S. Cummings, vice chairman, are very anxious to consult him about plans for the campaign.

While there was no marked change over night in Mrs. Howe's condition she is gradually growing weaker it was said today.

VILLA BAND IS HEMMED IN BY THREE BIG ARMIES.

(Associated Press Telegram)
Chihuahua, Mex., Sept. 13.—With the troops of General Huerta Vargas posted along the line of the Mexican Central railway ready to head off any attempt of the Villa troops to escape in that direction, General Carranza, pushing northeast with his command from Namiquipa and the American expeditionary force forming the third section of the circle, General Trevino states here that Villa is now in a position from which it will be extremely difficult to escape.

The American expedition has forces at San Buena Ventura and Carmen on the lookout for the bandits. San Buena Ventura is on the main wagon road to the central railway and gives the Americans the control of the only easy exit for Villa from his present position into northwest Chihuahua.

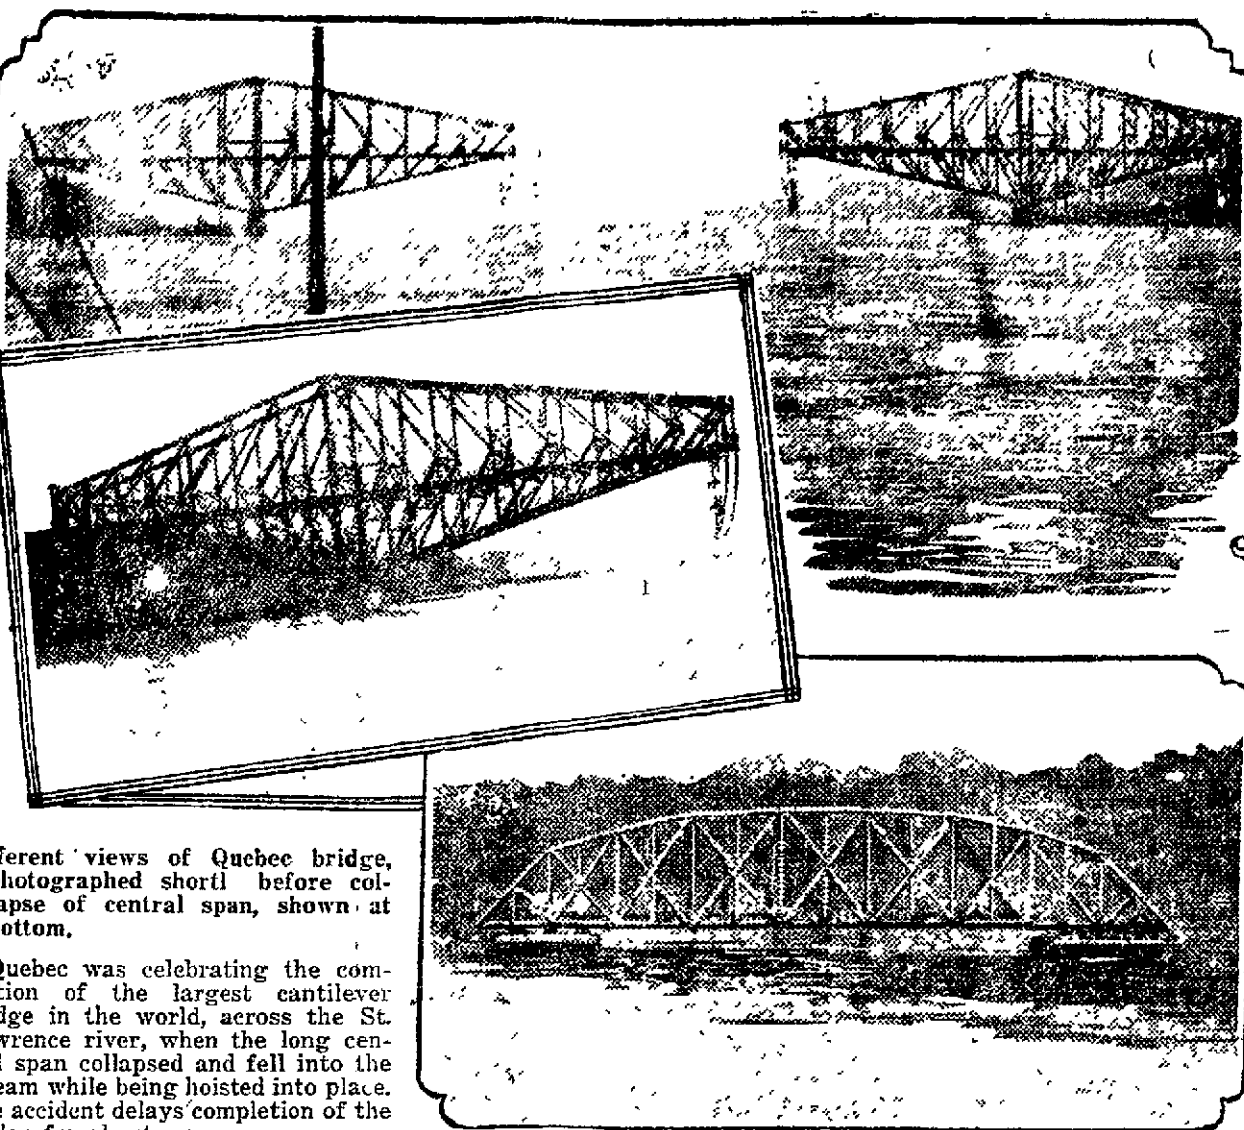

WOULD FORBID REMARriage OF DIVORCED PEOPLE.

(Associated Press Telegram)
Chicago, Sept. 13.—Marriage between parties divorced for any cause, either of whom has a husband or wife living, will not be permitted hereafter in the Protestant Episcopal church if a new canon recommended by the commission on marriage and divorce is adopted by the general convention of the church at St. Louis, Oct. 11, according to an announcement today. The commission is composed of five bishops, five priests and five laymen.

TUNNEL CAVED IN.

(Associated Press Telegram)
Cleveland, Sept. 13.—One man was fatally injured and sixteen others hurt when the roof of a water tunnel being dug under the floor of Lake Erie caved in early today. It was in another section of the same tunnel that 19 men were killed by a gas explosion several weeks ago.

QUEBEC'S ILL-FATED BRIDGE JUST BEFORE THE DISASTER

**Organized Cabinet to Main-

Censorship Delays News
From Reaching Public.**

(Associated Press Telegram)
London, Sept. 13.—King Constantine of Greece has accepted the resignation of Premier Zaimis and his cabinet, according to a dispatch from Athens, dated September 12, but delayed, probably by censorship.

The belief is entertained in the entente capitals that the retirement of the Zaimis ministry is preliminary to the entrance of Greece in the war with the allies. Recent dispatches from Berlin and Vienna show that there also, it is regarded as probable Greece will soon abandon neutrality and join the entente powers. The precise causes which led to the exceptionally rigid censorship.

It is believed in London that M. Zaimis' resignation was due to the fact that the accepted premiership on the understanding that he was to maintain neutrality and in view of the Bulgarian occupation of Greek territory had found this impossible. Up to the time of the first dispatch announcing that M. Zaimis had presented his resignation, his retirement was unexpected, for it was understood the premier had assumed dictatorial powers and was in an exceptionally strong position.

After the fall of the Venizelos cabinet last October on account of the king's disagreement with its policy favoring intervention in the war with the allies, M. Zaimis was called on to form a cabinet. He announced a policy of armed neutrality. The cabinet resigned in November, but in June, M. Zaimis was again placed at the head of the government. Although advocating neutrality he was regarded as having a predisposition toward the entente.

PAGE RENOMINATED FOR U. S. SENATE FROM VERMONT.

(Associated Press Telegram)
Burlington, Vt., Sept. 13.—Returns from the first direct primary held yesterday in Vermont, showed today that Carroll S. Paige, Republican, of Hyde Park, had been renominated for the United States senate by a vote fifty per cent greater than the aggregate vote of his two opponents, Governor Chas. W. Gates, and former Governor Allen M. Fletcher. With all but 58 of the 284 election precincts heard from the vote was: Paige, 23,180; Fletcher, 8,034; Gates, 6,650.

KILLS GIRL, HE WAS TO MARRY IN FEW DAYS.

(Associated Press Telegram)
Cleveland, Sept. 13.—Don Sinko, 23, a widower, shot and killed Miss Annie Shelka, 27, in her room early today and then killed himself. He boarded at the Shelka home and was to have married the girl next Monday. Jealousy is believed by police to have been the motive.

MINISTER'S FAMILY DRIVEN FROM HOME BY MORNING BLAZE.

(Special to The Advocate.)

Hebron, O., Sept. 13.—An early morning fire which destroyed the Methodist parsonage caused a loss of several thousand dollars, drove the family of Rev. T. B. White from the home in their night clothes and caused the villagers a hard battle in a fruitless effort to save the dwelling. The origin of the fire is unknown.

The blaze was discovered about 3 o'clock. It originated in the basement of the parsonage in Main street, just west of the church and though prompt assistance was rendered only a small amount of furniture and a part of the minister's library were saved. The house burned to the ground.

Sanford Black, who occupied apartments in the house also suffered the loss of his effects. The loss on the building is estimated at \$3,000, its full value, with insurance amounting to \$1,800. The contents will add another thousand to the loss, partly covered by insurance.

MORGAN UNCOVERS "TESTIMONY" HIDDEN IN BUNK MATTRESS

(Associated Press Telegram)
Columbus, Sept. 13.—Harris J. Morgan, third term at the state prison, was the only witness heard today at the investigation of alleged cruelty on the part of Warden Preston E. Thomas toward prisoners. A number of times he admitted that he was uncertain he admitted that he was allowed to refer to voluminous notes. In regard to certain cases, he asked that he be allowed to return to his cell for evidence. As a result, a great mass of closely written pages were taken from his mattress. He was allowed to refer to his notes in telling of specific instances of alleged cruelty. Morgan stated he had been an eye witness to some cases of extreme punishment of prisoners but in most cases he admitted that his statements were based on hearsay.

"In case this hearing goes wrong, friends outside will fill the 147 dailies of the state with evidence I have sent them," Morgan is quoted as having said in referring to the mass of written details. He said that he depended upon the testimony of other prisoners to corroborate his testimony.

DENIES ATTACK FOR WHICH MOB SOUGHT HIS LIFE

(Associated Press Telegram)
Lima, O., Sept. 13.—Charles Daniels, the negro who is being held on a charge of attempted assault on Mrs. Vivian Baber, and for whom a mob recently searched for three nights, was secretly brought here yesterday. Prosecutor Barr in the grand jury room. Officials admit Daniels denied the charges and maintained he never had seen Mrs. Baber, but they refused to give any further information regarding his testimony. Daniels was spirited away last night and is said to be a safe distance from Lima.

FOOD PROBLEM ARGUED

**Food Regulation Board Op-

Crops to Be Raised by
Farmers—This Problem
Displaces U-Boat Contro-
versy As Topic Discussion**

(Associated Press Telegram)
Berlin, Sept. 12, via London, Sept. 13, 12:40 p. m.—The weeks which have passed since the appointment of Field Marshal von Hindenburg as chief of the general staff have been marked by almost complete cessation of the discussion in regard to the resumption of the submarine warfare on the old or a more vigorous basis. Non-partisan newspaper observers who are in touch with leading statesmen and politicians express the opinion that for the present at least there will arise no question of a change in submarine policy. The administration of von Bethmann-Hollweg now feels itself fully in control of the situation in this respect. A controversy over the methods of the food dictatorship has now supplanted the submarine issue in the conservative and the newspapers which are opposed to the chancellor.

These newspapers are engaged in arguing with Adolf von Batocki, head of the food regulation board, the pros and cons of compulsory production as opposed to an increase or abolition of maximum prices as the method of enlarging the production of foodstuffs. Herr von Batocki has declared himself a convinced opponent of the theory that the food problem could best be solved by compulsory methods; that is, by prescribing what farmers should plant. But he also has little sympathy with the demand of the agrarians for increase or removal of maximum prices to encourage production. Accordingly the present system will continue.

Should the submarine situation remain as at present and should he assured that no revival of the underwater campaign is contemplated, Ambassador Gerard may take advantage of the opportunity for a trip to the United States, as he feels the need of a vacation. The ambassador hopes that before this he will witness the completion of the prolonged and delicate negotiations which he is conducting for relief of interned civilians in Germany and England.

Marietta Dealer Sentenced to Jail For Violation Which Caused Revocation.

(Associated Press Telegram)
Columbus, Sept. 13.—The big fight made before the state liquor license commission by C. L. Dye, Marietta liquor dealer to prevent the loss of his license, which was revoked by the Washington county board because he was twice convicted of violating federal liquor laws, proved unavailing, the state commission this afternoon affirming the action of the county board.

The decision of the state commission is of considerable importance because it establishes the principle that a license may be taken away under the present Greenlund state liquor license law if the holder of such a license is twice convicted of violating any regulatory liquor law state or federal. Dye was committed to the Ross county jail at Chillicothe for his violations against the federal law, and Federal Judge Sater is now investigating to determine if the sheriff allowed Dye to take joy rides and live in luxury away from the jail when he was supposed to be incarcerated behind bars, are well founded.

ENGLAND REFUSED TO RELEASE BIG U. S. SHIPMENT.

(Associated Press Telegram)
New York, Sept. 13.—Importers here were disappointed today by information that Mantion W. Wyvell, who was sent to London by the state department to negotiate for the release of German and Austrian goods detained at Rotterdam, is soon to leave England for America without having obtained from the British authorities more than a promise to consider the applications in due time. Mr. Wyvell, who is a foreign trade adviser to the state department, went to England in the latter part of June and has been making efforts to induce the British government to permit the German and Austrian goods to come through. The importers are informed that he was told several days ago that while all applications would be considered, final decision would have to come through the British embassy at Washington.

**Public Service Commission
Endeavors to Have Strike
Called Off Pending Dis-
cussion of Terms—Explosive
Found In Subway In
Brooklyn—Demonstration
Planned Tomorrow.**

(Associated Press Telegram)
New York, Sept. 13.—The Interborough Rapid Transit and the New York Railways company formally rejected today the public service commission's recommendation for a strike settlement made yesterday. The two companies, controlling the subway, elevated and "green car" surface lines, declined to hold further conferences with representatives of the union and announced that it is their intention to continue to operate their lines on the present basis.

Brooklyn detectives, it was disclosed today, are investigating a reported plot to damage property of the Interborough with an explosive. A cylindrical package, four inches by three in dimension was found by a track walker near the Borough Hall subway station in Brooklyn late last night. It contained, according to the bureau of combustible dynamite of the powerful kind generally used in undersea operations. Officials regarded the explosive as so dangerous that they threw it into the East River.

But few surface cars were operated today and passengers were forced to use the subways and elevated roads. Although traction officials claim more trains than normal are in operation, congestion at express stations is extreme. Platforms were crowded and many narrow escapes were experienced by passengers. There was little or no violence during the night, largely due to the fact that police were stationed on roof tops where strikers had been made on elevated trains.

Hugh Frayne, state organizer of the American Federation of Labor, announced today that between 2,000 and 20,000 men will take part in "the parade and demonstration" tomorrow. Although he declined to discuss the proposed "sympathetic strike" other union leaders said plans had been made to call on strikers closely allied to the street railway men in the event the demonstration "tomorrow and the efforts of the public service commission prove unavailing to settle the trouble."

Mayor Mitchell developed today has under consideration two methods of settling the strike. One is to request Governor Whitman to call a special session of legislature to pass a law compelling the strikers to arbitration while the other purposes immediate granting of a franchise to the New York Motor Bus company, incorporated, to run machines through certain streets.

This franchise has been before the board of estimate for the past year. Following the reply of the traction companies, the strikers through William B. Fitzgerald, general organizer of the Amalgamated Association of Electric and Street Railway employees, confirmed the contention that strikers could not accept the request of the commission to bring the strike to an immediate end, in view of the stand taken by traction companies. He accepted in behalf of the union the recommendation that the questions at issue be submitted to arbitration.

CONFESSES PART IN TRAIN ROBBERY; TWO OTHERS HELD

(Associated Press Telegram)
Martinsburg, W. Va., Sept. 13.—Charles Jefferson Harrison of San Antonio, Tex., made a full confession of the train robbery with which he was charged in the United States court here today before Judge Dayton. Sentence of 12 years' imprisonment in the penitentiary at Atlanta, Ga., was immediately imposed.

The robbery was of a Baltimore & Ohio train near Central Station, W. Va., on Oct. 8, 1915.

With Harrison was implicated Eugene Dies, who will be placed on trial next and H. Grady Webb, who never has been arrested. The robbers took from the express car of the train more than a hundred thousand dollars in unsigned bank notes, many of which have been recovered.

**COLE BLEASE IS DEFEATED
FOR THE RENOMINATION.**

(Associated Press Telegram)
Columbia, S. C., Sept. 13.—Governor Richard L. Manning has been renominated for governor of South Carolina over former Governor Cole L. Blease, according to nearly 60,000 unofficial returns from yesterday's Democratic "run off" primary compiled here today. Governor Manning's vote, including that cast by the national guardmen on the border, with only 84 small South Carolina precincts missing, was 88,926 and 64,274 for Blease. Blease led Manning by more than 20,000 votes in the first primary, but failed to obtain a majority over five aspirants.

**REGARDS TALK ON
WELFARE WORK AS
HIGHLY IMPORTANT**

President F. L. Beggs of the chamber of commerce today emphasized the importance attached to the meeting of the membership council Thursday evening at 7:30, when the work of the public welfare bureau will be outlined by W. E. Hopkins, head of the Associated Charities.

Personal invitations have been sent to each of the 30 members of the membership council, of which Clarence Heisey is chairman. Also invitations have been tendered every member of the chamber and those wishing to hear the discussion, who are not members of the organization are asked to attend as guests of the chamber.

Mr. Hopkins' talk will be the first of a series of discussions on public welfare, touching upon the work of the Associated Charities, the Humane Society and caring for delinquent children.

"Many important things will be brought out," President Beggs said, "and I wish every member who can, will attend."

It was further announced that all meetings of the membership council were open to members of the organization and at any time when important discussions are to be held, non members of the organization can attend as guests of the chamber.

**Sheridan Happy;
Thief Didn't Get
His Other Shirt**

The "clothes basket" mystery at the home of Chief of Police James Sheridan, has been solved.

Officers Gorman and Hurlburt after working on the case a few hours, reported to the chief that they expected to make an arrest in a short while. The chief confided the good news to his wife, explaining that the officers did not dare to move too quickly lest their prey escape.

Then the head of the department received a shock.

"The stolen clothes are home," Mrs. Sheridan told her husband when he had finished his explanation. "The wet wash man took them from the porch by mistake, washed them, and then brought them back."

And so far as the chief is concerned the incident is closed forever.

ALL NEWS TO HIM.
Ellyria, Sept. 12.—(Clyde Brock) returned yesterday from a week's vacation to Toronto, Canada, to be informed that he had become the father of twins (boy and girl). Brock couldn't be reached by telephone, otherwise, and, as a consequence, was taken by surprise on his return home.

**BOND FORFEITED
IN LIQUOR CASE;
MORE ARRESTS**

The hearing of Lemuel Bergin which was to have taken place before Mayor Amos Atwood at Hebron yesterday afternoon did not materialize as Bergin failed to appear. His bond of \$500 was forfeited and Mayor Atwood will collect the same, a well known Hebron citizen being on the bond.

Chief Evans of the state liquor license department was present with two assistants and left after the bond forfeiture at once for Bruno with warrant for the arrest of Wm. Bergin, charged with keeping a place where liquors are sold illegally and one for Frank "Skinner" Houston, charged with selling intoxicants illegally. The two men were taken before Mayor Atwood and he named their bond at \$1,000 each, which Bergin claimed he was not able to give.

Bergin and Houston were brought to this city but changed their mind about not being able to give bond. They returned to Hebron with a Newark friend who signed the bond and the men were released. Their hearing will come before Mayor Atwood at a later date.

The man who lives up to his ideals isn't necessarily a high fiver.

A man can get used to anything, especially making a fool of himself.

The fellow with money to burn doesn't have to go begging for a light.

Charity begins at home. Perhaps that is why it covers a multitude of sins.

You never can tell. It is sometimes better to take a chance than to lose on a sure thing.

Some people are always either standing up for themselves, or sitting down on others.

There isn't much hope for the fellow who thinks it's too hot to make hay while the sun shines.

The ups and downs of some people are limited to the height of folly and the depths of despair.

In order to make both ends meet, there are times when it seems almost necessary for a man to be a contortionist.

**The Solemn Grandeur
of Sacred Music**

In all the realm of music, there is nothing so expressive of human aspirations, hopes and emotions as the hymns of prayer, praise and devotion with which our tongue is so richly blessed.

This highest form of music is fittingly interpreted on these three beautiful Columbia Records:

V-5802 12-inch \$1.25	The Messiah—(Handel). Hollelujah (Chorus, Columbia Oratorio Chorus). The Crucifixion—(Stainer). "Pine Wide the Gates" (Columbia Oratorio Chorus).
V-5708 12-inch \$1.25	Nearer, My God to Thee—(Lowell Mason) Oscar Seagle, Baritone and Columbia Stellar Quartette. Lead Kindly Light—(John Dykes) Oscar Seagle, Baritone.
V-1987 10-inch 75c	Still, Still With Thee—(Gerrish) Columbia Stellar Quartette. Unaccompanied. Just As I Am—(Bradbury) Columbia Stellar Quartette. Unaccompanied.

In tone and modulation, truth and feeling, these records are worthy in every way of the highest standard of Columbia recording.

The "music-note" trade-mark always stands for the best and best-rendered and reproduced in music, whether it is sacred or other music. Let your dealer prove it today.

Miller's Antiseptic Oil Known as

Snake Oil

Will Positively Relieve Pain In Three Minutes.

Try it right now, for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pains in the head, back and limbs, corns, bunions, etc. After one application pain disappears as if by magic.

A never-failing remedy used internally and externally for Coughs, Colds, Croup, Sore Throat, Diphtheria and Tonsillitis.

This oil is conceded to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts at once. As an illustration, pour ten drops on the thickest piece of sole leather and it will penetrate this substance through and through in three minutes.

Accept no substitute. This great oil is golden red color only. Every bottle guaranteed: 25c and 50c a bottle, or money refunded. At leading druggists. Hall's drug store.

Unselfish Mother Love

Mother Love is one of the most sacred things in the world. It prompts the mother to give her strength—her life even—gladly—happily—that her child may be safer, happier, stronger or better in every way.

Just a food—especially prepared to aid in making red blood and strong healthy tissue—is what she needs. Then all the natural functions of the body will be easily carried on without the least sense of fatigue or drain. With plenty of red blood in her veins, mother will feel no ill effect from nursing baby.

HEMO will aid mother in supplying baby with a quantity of good quality milk and at the same time improve her general physical condition. When it is impossible to nurse the baby, secure the food most nearly like mother's milk by asking your druggist for Thompson's Food (Peptonized).

We suggest that you try a 50c package with our guarantee of satisfaction. CITY DRUG STORE, NEWARK.

NEWARK HIGH LYCEUM COURSE OPENS OCT. 13

The opening number of this season's Lyceum course of the Newark High school will be given on October 13 by the Oxford company which gave a very delightful entertainment here two years ago. Assurance is given that the entire course this year will be the best that has ever been presented in this city. Two years ago the Oxford company gave the comic opera "Mikado." This year "Arms and the Man," another name for "The Chocolate Soldier" will be given.

The Lyceum Course of the Newark High school will maintain its high standard this season in the eight numbers to be presented. The high school has been conducting a course for nine consecutive seasons with greater success each year. The course is given for the benefit of the community and not to make money, consequently, is offered each year for a price as low as possible.

The reservation of seats will take place Saturday, Oct. 7 at Erma's drug store. A change has been made in the manner of reserving seats. Everyone will have the same opportunity to get the more desirable seats as numbers will be drawn from a box which will determine the order in which people holding season tickets will reserve seats. Detailed explanation will be found printed on the season tickets.

The public should not put off securing season tickets early, as each year there are people desiring tickets who neglect to get them until it is too late. The tickets are being delivered to those who have filled out cards and will be delivered to anyone that leaves an order at the High school office: phone, 1352.

The second number, Dr. James A. Burns, or "Burns of the Mountains," will be a lecture on the Mountaineers of the South. Dr. Burns, himself a mountaineer, founded a college to save his own people from degeneracy and feuds. Probably no greater character is to be found with the borders of the United States and no one can afford to miss hearing him deliver his great message.

The Cord-Rummell Musical company comes third in order. This will be the great musical treat of the course. The Music News of Chicago says of Miss Fay Cord, soprano, that "Miss Cord is possessed of a voice of unusually beauty, and her lyric work of a quality that reminds one of Jenny Lind. Mr. William Morse Rummell, violinist, has been given a very high compliment by Fritz Kreisler the greatest of all violinists.

Dr. S. Parkes Cadman is conceded to be one of the very few great preachers of the world. He stands at the height of his power today. His lecture, "The Puritan in Two Worlds," which he will deliver here is unequalled anywhere.

Sidney London gives what is called a lecture-recital. Through his

interpretive art men like Twain, Nye, Longfellow, Tennyson, Holmes and the like live again. By the use of wigs and paints he gives his audiences visualizations and impersonations of these men which are startling in their approach to nature. The Zedeler Symphonic Sextette is an organization of superior musicians. This is positively the best instrumental organization for its size on the platform today.

Russell H. Conwell has given his lecture "Acres of Diamonds" over five thousand times. He is the most popular lecturer in the world.

Gay Zenola MacLaren is a dramatic reader of modern plays. Miss MacLaren is a genius in her imitative recitals of famous plays. Leland T. Powers says of her "She is the most gifted young artist I have heard in recent years." Her dramatic sense and power of impersonation struck me as truly wonderful."

SCHOOL EXHIBIT WILL BE FEATURE OF COUNTY FAIR

The school exhibit at the Licking county fair to be held Sept. 26 to 29, promises to eclipse anything of a like nature ever seen in the county. The Chamber of Commerce of this city has offered \$250 in premiums and hundreds of pupils over the county will compete for the prizes. Elmer W. Jordan has been selected as superintendent of exhibits and Frank B. Dudgeon secretary. These gentlemen will give the school exhibits their personal attention and the department is doubt to be visited by many thousands of visitors.

Entries continue to roll in for the various departments of the big annual county fair. The office of Secretary Dudgeon is thronged daily by intending exhibitors and it keeps himself and assistants busy in answering the mail. The fair this year will without a doubt exceed that of other years in the matter of exhibits. The horse, cattle, sheep, hogs and poultry pens have been placed in readiness and it may be necessary to erect a number of tents to take care of some of the stock.

The grange exhibit will be up to the usual standard, and that means the finest in the state for Licking county granges have that reputation. The race program will bring a large field of horses to the track and the sport will be equal to that of the large tracks of the country. Over \$4,000 will be offered in purses.

REMEDY FOR NEURASTHENIA

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

The symptoms are oversensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea. The treatment is one of nutrition of the nerve cells, requiring a non-stimulating, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. BLAZING A TRAIL

Have you ever heard of an Indian getting lost in the woods, during America's pioneer days?

The Indians knew every foot of ground in their forests, because of their practice of blazing the trail. All the way along, a new path they cut pieces out of the bark of the trees. This made the new path a known road for future travel.

In the untraveled path of your finances, you can apply the same principle. Every time you pay a bill with your personal check, you have blazed your trail a step farther, for the stub of that check keeps a record of that payment. Looking through your check book will show you exactly where you stand. You are no longer following an unknown path. Why not begin NOW to pay by check and blaze your trail to greater efficiency?

Milady's Boudoir

It has often been declared that the sound of running water has the effect of lulling one to sleep, but in India the mothers go much further than this and make their babies sleep by letting a small stream of water flow directly on their little heads.

Such means seem almost incredible, and one might think colds and other ailments would result that would kill the babies, but apparently this novel liquid lullaby has no harmful effects upon the native infants, and they lie sleeping for hours with a stream of water flowing directly upon their little heads.

This is done by the native mothers in the vicinity of Simla. There the women do a great deal of field work and must leave their babies alone. Few of the women can afford caretakers, and so they resort to what they consider the next best thing.

Our Boys and Girls

The proper care of babies and children is as much of a study and a life work as any business that a man has ever undertaken. And yet, today, the majority of girls are wholly unprepared for the duties of motherhood. The richer classes depend upon their trained nurses more or less, but the thousands of mothers of the middle class are left to experiment for themselves, usually at a cost of their health or of their domestic happiness, and at the risk of their little ones lives.

Few young women have been told much about the care of babies and no one knows but a mother how utterly helpless and overwhelmed she feels when the little live bundle is placed in her care for the first time. She realizes that its health, both of body and soul, depends upon her, and not only that, but perhaps the whole happiness of the family is hinged on her care of that baby.

LOWELL WOMAN LEARNS TO WALK AGAIN; WAS CRIPPLED FROM RHEUMATISM

Suffered From Deforming Arthritis—Joints Grated Like Sand—Nurse Says Recovery Almost Beyond Belief.

"It is almost beyond belief," was the comment of a nurse who recently visited Miss McMasters, 312 Humphrey St., Lowell, Mass. She said:

"I have read a great deal about Var-ne-sis, but paid very little attention to the letters until I investigated, thinking Var-ne-sis was the same as all other preparations. I have stood firm against advertised medicines, but my investigation has opened my eyes to the harm one may do by condemning every remedy without knowing something about it. Miss McMasters was told not to take Var-ne-sis; had she heeded this advice she would be in her wheel chair today."

Miss McMasters when seen was busy getting dinner. She told how she learned to walk again by having some one hold her until she grasped the edge of a table and gradually worked from one end to the other. She stated that she recently went shopping and walked up and down stairs without difficulty.

She said: "For seven years I have not known a day that I did not have pain. All my joints were afflicted, when I moved my head I could hear and feel grating like

there was gravel or sand in my neck. My knees would snap and grate like my neck, they were drawn up so I was unable to straighten them; the grating of my knees could be heard downstairs. If I wanted to sit down I would have to literally fall in a chair. Trunk straps were fastened around my body to get me upstairs. On the top step I was laid on a rug and dragged to the bed."

"The fingers of the right hand were drawn into the palm and the hand drawn to my head, as if joints were stiff, and I had to be fed and dressed like a child. I was in continual pain and no part of body seemed to escape the disease. Different physicians treated me for a time, but finally said I could not be cured. One physician gave me injections of a vaccine, but I only grew worse. The last doctor said I would never get rid of the disease, as it was the worst form of rheumatism, arthritis deformans. I was in bed for sixteen months."

"Reading about Var-ne-sis and how it helped others with rheumatism of the joints I decided to try it. I am glad I did, for in a short time

I could use my wheel chair, then my crutches and finally my canes. The pain and stiffness became less noticeable. The chalky bunches of the fingers and the knees disappeared, my hands straightened, so that now I can feed and dress myself. I can walk downstairs step after step, sew a little and do some housework."

"I have given W. A. Varney my wheel chair, crutches and canes to add to his large collection, for I can get about now without any assistance."

"I am glad you called, for I am always pleased to tell anyone how I recovered from this terrible disease. Perhaps my experience will help some other poor sufferer."

It is the duty of every rheumatic to investigate the truth of this statement. If not true it is the duty of the authorities to investigate. Send to W. A. Varney, Lynn, Mass., for the "Story of Var-ne-sis." It's Free.

Get Var-ne-sis now, today, at R. W. Smith, druggist and all reliable druggists. Tell your druggist to get Var-ne-sis for you from his wholesaler or send to W. A. Varney, Lynn, Mass.—Advertisement.

The Sick

Miss Leua Bieberbach, who is ill at her home in South Fifth street, with peritonitis will undergo an operation the latter part of this week. Miss Bieberbach has been bookkeeper for the Sperry & Harris company.

Martha Jeanne Wohl, little daughter of Mr. and Mrs. J. W. Wohl, Jr., of 238 North Fourth street, underwent an operation for the removal of tonsils and adenoids today at her home. The attending physicians were Drs. C. B. Hatch and J. T. Harbottle.

Gen. Alvaro Obregon, the one-armed Mexican hero, has won a bride, Miss Hortencia Tapia, daughter of a wealthy Hermosillo rancher. The affair having begun before the revolution and been kept warm by frequent visits throughout the troubled times.

A group of explorers and adventurers just back from Africa report that during the six years of their wanderings they employed perhaps 20,000 porters and lost but one man killed, a record which might give pause to people who have thought things about the comparative safety of that continent and Europe.

Barry Putnam of Rochester, N. Y., trapped a robin recently and found tied to one of its legs a note written by Miss Beatrice Human of Washington, D. C., inviting the finder to address her if he was under 30, single and good-looking. Mr. Putnam replied at once.

Good Reason.
"I see Jack Hanson was married the other day to Miss Richley."
"Yes, I was sorry to see it."
"Sorry? For her sake or his?"
"For mine, I wanted her."—Pearson's Weekly, London.

Hard to Tell.
"I see your son is home from college, Mr. Jones. Is he developing well?"
"Can't hardly tell yet. He's only had his moving-picture camera a week."—Baltimore American.

Markets

Wall Street.

New York, Sept. 13.—Prices tend-

upwards again at the opening of today's market, but the wide and general gains of recent sessions were lacking and the undertone indicated a degree of irregularity. Shipping shares were active but moved unevenly. Atlantic, Gulf and West Indies recording a new maximum on its one point advance to 90, with an equal gain for Pacific Mail, while Mariner and United Fruit suggested realizing. American Smelting led the coppers with an additional two point gain and motors, sugars and some of the equipment were materially higher.

United States Steel made only moderate headway and rails were barely steady.

Rails shook off their apathy before the end of the first hour and helped to revive interest in the general list. Pacifics, grangers, coalers and trunk lines rose one to two points. Union Pacific and Reading being especially prominent. Steel also came forward but failed by a liberal margin to repeat yesterday's high record. Bethlehem Steel extended its gain by almost six points and general motors climbed to new heights at 64 1/2 with marked strength in Maxwell and Studebaker.

Industrial alcohol, Pittsburgh coal and railway steel springs featured the other strong specialties, with pronounced weakness in the paper group. Bonds were steady.

Howard Ardrey, vice president of the National Bank of Commerce of New York City and George E. Allen, educational director of the American Institute of Banking, New York City.

SCHOOL ENROLLMENT

WILL ALMOST EQUAL THAT OF LAST YEAR

The enrollment of the various elementary schools disclose the fact that it will total within a few days as many as attended last year. There are 4,100 pupils attending the grade schools and 690 the High school, a total of 4,790, 2,089 being boys and 2,701 girls.

The largest enrollment in the grade schools is at the Central building where 423 pupils report. Next largest is the Hartler with 407 and Woodside third with 386. Then comes Mahom with 364 and Mound with 351. The smallest attendance is at the Riverside building where 111 pupils are enrolled. Superintendent Wilson Hawkins has completed a census of the various schools which will be ready for publication shortly.

The Courts

Court Saturday.

Judge Park B. Blair of Mt. Vernon will be in the city Saturday morning to hold a short session of court. A couple of court cases are on the docket for hearing.

Justice Scott's Court.

Two affidavits were filed in Justice Scott's court today against Esker Haley. One was by Hugh Diehl charging defendant with assault to kill. The other was a similar affidavit subscribed to by Forest M. Martin. Diehl gave bond in the sum of \$100 on each charge and his hearing was set for next Wednesday morning at 8 o'clock.

Destruction of Hedge.

Alexander Clark is charged in an affidavit by Jane Elliott with cutting down a shrub or hedge on her property, the hedge being of the value of \$25. He was arraigned in Justice Fletcher S. Scott's court today and that official set the hearing for Friday morning at 8 o'clock.

To Higher Court.

W. A. Gregg as plaintiff in error has filed a brief in the court of appeals in the case entitled "W. S. Gregg, et al. Albert Clapham." This is the case in which Clapham recovered a verdict in common pleas court for \$300.75 and costs, the latter amounting to \$216.19. Clapham's son was injured in a fall from a motorcycle on the Granville road some years ago, running into a wire which had been stretched across the road by the contractors. The father sued for damages for services of his son and was awarded a verdict in the lower court which the plaintiff in error now seeks to have reversed.

Suit for Divorce.

Agnes E. Harner has filed a petition in probate court against Herbert Harner. The parties were married April 23, 1916. The petition alleges neglect and cruelty and a failure to provide. Plaintiff states that she inherited money and that defendant squandered same and after she could secure no more ordered her from home. She asks for a divorce and alimony.

The German meteorological observatory in Spitzbergen, according to a news dispatch from Tromsø, Norway, has been plundered and partly destroyed by British marines, and its German staff has been taken prisoners.

This observatory was founded by Prof. H. Hergesell, president of the international commission on scientific aeronautics, chiefly for the purpose of making observations on the upper atmosphere with balloons, and has made important contributions to arctic aerology. Some valuable work has also been done here in measuring the height of the aurora by photographic methods.

In England there has appeared a new telephone device which renders possible the summoning of a subscriber back to the telephone after he has been asked to "hold the wire," while the party at the other end is looking up some desired information.

The device is in reality a loud-speaking horn. If the subscriber called does not wish to hold the receiver to his ear he can place it over the horn and go about his duties. The calling party's voice is so amplified that he may be heard throughout a room.

A North Westmoreland farmer in the course of his rounds through his fields found a nest with 25 eggs in it. The large number was not the only marvel, for on examining the eggs he found that 15 of them belonged to a pheasant and the remaining ten to a partridge.

The pheasant, as the stronger bird, was the probable intruder.

At the historical service held in St. James church in Evansburg, Pa., in remembrance and appreciation of Queen Anne's bounty, the prayer book which was used was the personal prayer book of King William and Queen Mary of England, and was used later by Queen Anne. The book is in possession of Ex-Governor Samuel W. Fennypacker, a vestryman of the church.

According to the Dutch legation in Stockholm, an extensive aluminum smelter is being organized at Loranford, Norway, where there is a water fall which may supply 60,000 horse power. It is proposed to develop 20,000 horse power at once, to provide for the production of 4,000 tons of aluminum a year. The capital stock of the company is fixed at \$2,500,000, of which \$2,000,000 is subscribed.

An Optimist's Essay.

A pessimist is a son of the man who didn't believe there was any such thing as electricity.

He is an offspring of the man who was sure that the horseless carriage would never come, and a nephew of the man who was willing to bet money that men would never fly.

A pessimist is a direct descendant of the man who was sure that wireless telegraphy was a fool's dream and a submarine merely the creation of a fiction writer's brain.

The pessimist's ancestry scoffed at the telephone, the typesetting machine, the twenty story building, anaesthetics and every forward step the optimists have taken for the betterment of human life.

If the pessimists of the past had been right men would still be living in caves and trying to get their meals with clubs and flint arrows. And evidently they died without publicly confessing their mistakes, for their pessimistic children continue to prophesy dismally that everything that is surely going to be cannot possibly come to pass. They seem to be born with the habit and cannot get over it.—Detroit Free Press.

Speed of Bullets.

The rate of fall of the bullet from the line of projection is fixed by the laws of gravity, hence the more rapidly the bullet is made to pass from the rifle to the target the fatter will be this curve or "trajectory," the less accurate the estimation of distance required and the less the chances of error through an inaccurate estimate of distance.

The normal velocities of our sporting rifles, in black powder days, were about 1,300 feet per second. The first of the small bore, high power, smokeless variety raised this to 2,000 f. s. for bullets of military length and 2,200 for shorter sporting bullets. Now it has gone up to 3,100 f. s. The burning questions asked again and again by the riflemen are, "Where will we stop?" "Will the 4,000 f. s. bullet come next?"

Cultivating Amusements.

Don't provide inducements to get a child to love amusements. It may encourage a habit that will sadly interfere with a sincere and useful life. Don't make a boy feel that he cannot waste too much time in having fun and catering to his senses. Life is real and earnest, and amusement is admissible at times, but should not be the rule. The manly youth is for fun, but he is not always engaged in striving for his own pleasure. He should not be educated into that idea of life. He should not be furnished with inducements away from what is true and real in life. It is a serious matter tempering with a youth's nobler aspiration. Providing amusement is apt to prove an unnatural adjunct in education.—Columbus Journal.

Hate All Around.

The famous English chief justice Holt and his wife hated each other to the limit, and when she fell dangerously ill he was so delighted that he became disgracefully tipsy. But his wife was equal to the emergency and sent for the great Dr. Radcliffe, who hated Holt, and therefore out of spite when the case was presented to him came with great promptness and saved her life.—Westminster Gazette.

High Tide.

The feminine waltz that is so amusing to the nautical man has a good illustration in this question asked by a young woman who saw a monitor lying at anchor in Boston harbor. She turned to her escort and said: "What makes that boat lie so low in the water? Is it high tide?"—Sailors' Magazine.

Pope's Preference.

The Prince of Wales of Pope's time once said to the poet: "Mr. Pope, do you not like kings?" "Sir," replied the poet, "I prefer the lion before the claws are grown."

Safety First.

Knicker—Polks are queer. Bocker—Yes; the ones who stop, look and listen at a keyhole won't do it at a railroad crossing.—New York Sun.

PRACTICAL HEALTH HINT.

Water For The Baby.
Infants suffer from not having enough water to drink. Babies are thirsty and frequently cry from the discomfort due to thirst.

In proportion to its weight an average infant during the first year of life requires a little more than six times as much water as an adult. During the time when the child is upon an entire fluid diet the addition of much water other than that supplied by the food is unnecessary. The food (breast milk) of all young mammals consists of from 80 to 90 per cent of water. This is needed for the solution of certain parts of the food, such as the sugar and some of the proteins, and for the suspension of the other solids and the emulsification of fat. All the food is thus dissolved and minutely divided so as to be the more readily acted upon by the feeble digestive organs of the infant.

When the feeding becomes less frequent water to drink from a bottle with a nipple on it should be given to drink between the feedings. In summer time especially babies suffer a great deal from thirst.

PRESIDENT ANNOUNCES APPOINTMENT OF SEVERAL NEW INSTRUCTORS.

Mrs. Brumback Will Be Principal of Shepardson College—Newark Girl in Physical Department

Granville, O., Sept. 13.—President C. W. Chamberlain at last is able to announce the following appointments which the Denison board of trustees was obliged to leave unfiled at the June meeting: R. W. Sonje, tenor of Seattle, Wash., was appointed head of the voice department in the place of Miss Grace Brooke, contralto, who has opened a studio in Cleveland. Mr. Soule is a graduate of Knox college, Galesburg, Ill., and is a successful instructor. The position of associate professor of English will be filled by Roger R. McCutcheon, a graduate of Harvard University, who has since held positions on the faculties of Wake Forest College, the University of Minnesota and Harvard. The associate professor of history is Kenneth Latour, a graduate of Reed College, Portland, Ore., who took his bachelor's degree and his doctor's degree from Yale. For two years he was professor of history of Yale in China. Herbert B. Butcher of Camden, N. J., is to be physical director of Doane Academy. Miss Ethel Brilhart of Newark will be assistant physical director in Shepardson college.

The position vacated by the death of Prof. A. M. Brumback, head of the chemistry department will not be filled permanently until the April meeting of the board. The work will go on under the direction of Miss Sefton, who for years was the assistant of Prof. Brumback. She finished the work for her master's degree during the summer term at O. S. U. Mr. Clyde Adams who was under appointment in the department of chemistry of Ohio State University, has been released to act as instructor in chemistry in Denison for the year.

The woman chosen for the deanship of Shepardson college was not available for the present year, therefore the trustees have reviewed the principalship for one year and have elected Mrs. A. M. Brumback to the position. She will live in the dean's apartments in Burton hall.

George T. Street of Columbia university, New York, will be instructor in Mathematics in Doane academy.

Eri Shumaker of Bowling Green will be teacher of English in Doane academy.

Miss Anna Peckham who spent her year's leave of absence in special study in Columbia university, returned last evening to resume her duties in Denison. She will occupy her former apartments in Stone hall.

President Chamberlain states that from all indications, today's registration will break all previous records. The dormitories and fraternity houses are already full of men and large numbers have taken accommodations in the village. Four dormitories on Shepardson campus are full and in addition the college has leased three large residences which have been filled with girls and thirty girls have been placed in private homes. Registration did not begin until this morning, but eighty-seven girls were on the ground yesterday.

Mr. Haggard of Petrograd, Russia, sent a letter to President Chamberlain by his son, Ray, who came to Granville by way of New York. The letter was mailed in New York. Mr. Haggard sent a copy of the letter by way of San Francisco which was delayed by the censor so that both letters after going half way round the world in opposite directions, reached President Chamberlain by the same mail.

Dr. Quay of Cleveland is in Granville with his son, who enters the freshman class in Denison.

Today is registration day for Denison, Shepardson and Doane academy students. Tomorrow, Thursday, the first-chapel service of the year will be held, at 11:30 a. m. in the Baptist church.

Mrs. Barnes, of Providence, R. I., who is a cousin of I. A. Austin is a guest in his home at Elm and Prospect streets.

Rev. Chas. Seasholes arrived in Granville this week, accompanied by his daughter. She will enter Shepardson college.

The funeral service of Mrs. Holcomb, was held at her late home on College street, Wednesday morning at 10 o'clock. Burial was made in Liberty cemetery. Rev. Barnes officiated. Mrs. Holcomb passed away Monday afternoon. She leaves two daughters, one son and a number of grandchildren to mourn her departure.

Miss Frances Carney, who was the guest of an aunt in Detroit, Mich., met with a very serious and painful accident on Saturday, when the limousine, in which she was riding was struck by a street car. Miss Carney received serious facial burns and a fractured skull. Prof. and Mrs. Carney left at once for Detroit and are at her bedside.

An important meeting of Center Star Lodge was held in the lodge rooms Monday evening. The third degree was conferred on one candidate, a delicious lunch was served to the members and several guests.

The members of the Sinsabaugh house party and their friends, were entertained Monday afternoon with a picnic supper at Watkins Spring near Alexandria. The party was conveyed to the spot in automobiles and spent the afternoon roaming about the woods and gathering ferns for the wedding day decorations. All had acquired splendid appetites when the supper call came. Those in the party were, Misses Sinsabaugh, Burns, Rowley, Helving, Chubbuck, Wood, Loyd, Williams, Louise and Alice Wilcox. Mrs. Wilcox, Mrs. Sinsabaugh, Messrs. Smith, Athlerly, Curtis, Cockran, Swain and Tyler.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 175 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

MILLENNIUM

WILL BE PERIOD OF DESOLATION PRECEDING REIGN OF CHRIST ON EARTH.

Commences With Second Coming of Christ and Continues While Earth is Being Cleansed.

"The Millennium, But No Second Chance," was the subject of Evangelist W. W. Miller's address last night, at the Big Tent, corner West Main and Eleventh streets. An interested audience listened attentively throughout. He claimed that the millennium, so far as this earth is concerned, is to be a time of desolation and chaos, not a time of peace, happiness and bliss when all who have not accepted the gospel will be given a second chance to be saved.

"The term 'millennium,'" he said, "is a term not found in the Bible, as many suppose, but is a latin phrase of two words, 'Mille,' meaning a thousand, and 'Annum,' meaning a year. These two words combined and Anglicised form the word 'Millennium.' While the word itself is not found in the Bible, its equivalent is used therein a few times. It is a period bounded by two resurrections. It commences at the second coming of Christ. The events during the period show that God's people of all ages will be with him in heaven, while all the wicked of all ages will be in their graves or lying dead upon the surface of the earth. The earth itself will be a vast charnel house of desolation, ruin and wreckage. Satan and his angels will be left to behold what their rebellion against God has wrought.

"Then at the end of the millennium there will be a resurrection of the wicked in which they live a 'little season,' to be entirely annihilated in the lake of fire. Then the earth, purified and cleansed will be renewed by the creative power of God. The new Jerusalem will become the capital of the new earth, and the Lord's people will be given the earth in its Edenic restoration for their inheritance, thus fulfilling the promise made by the Saviour in Matthew, 5:5.

"Revelation 20:1-3 says that Satan is to be bound and cast into the bottomless pit for a thousand years, and after that be loosed a little season. It is not to be understood that Satan is to be bound with a literal chain, for the language employed is symbolic. He is to be bound by a chain of circumstances, the links of which are first, The second coming of Christ; second, the resurrection of the righteous dead; third, translation of the righteous dead and living, and fourth, the destruction of all the wicked inhabitants of earth. These links form a chain which removes from him the power to deceive, for it takes from him all his subjects upon which he could possibly practice his deception. The bottomless pit is simply this world in its wild and desolated condition. Indeed, the term 'pit,' as here used, is translated from the same original word which appears in Genesis 1:2, and is there called 'deep,' thus 'darkness was upon the face of the deep.' It refers throughout the Bible to any barren, desolate and uninhabited region. A word picture of the earth during the millennium is given by the prophet in Jeremiah, 4:23-27.

"If the binding of Satan is the taking away from him his subjects, then the loosing of Satan is the taking of Satan is the giving back into his hands of at least a portion of them. And this is precisely what is to take place, for Revelation 20:5 says, 'But the rest of the dead lived not again till the thousand years were finished.... and when the thousand years are expired, Satan shall be loosed out of his prison, and shall go out to deceive the nations.' This shows that the wicked will be given a resurrection, and that as soon as they are raised to life, Satan goes forth to his old work of deceiving them, and is thus loosed from his prison.

"Meanwhile the Holy City has descended from heaven, as stated in Revelation 21:2, and in it are the saved of all ages, who were translated to heaven at the first resurrection at the beginning of the millennium. Then Satan and his deceived followers attempt to capture the city. At that time fire from heaven descends upon them and devours them all. Satan with the rest. The same fire that destroys the wicked in that lake of fire, also purifies the earth of all sin and traces of the curse as seen now in the decay of nature. Then are fulfilled the words of Malachi 4:1-2. The Lord will then and there, before the admiring gaze of his people, speak the words, 'Behold, I make all things new.' And from out the chaos and ashes will spring a new earth, 'and the former shall not be remembered nor come into mind.' All tears will be forever wiped away. God's throne will be removed from its present location and set upon the earth, and here will be the center of the universe forever. Christ will come forth and say, 'Come, ye blessed of my Father, inherit the kingdom prepared for you from the foundation of the world.' Eden will become the new Jerusalem, and the plan of Salvation through Christ will be accomplished in the 'resurrection of all things.' The subject announced for tonight is, 'The Christian's Future Home.'

"A GREAT SYSTEM IN A GREAT STATE"

THE ALPHABETICAL DOTS

By CLIFFORD LEON SHERMAN

"Are the soldiers happy in the camps along the border," asked Tommy one night, "and do they ever get homesick?"

"I wouldn't exactly say that they were happy," said his father, "but they are taking things very good naturedly, considering what they are putting up with and what they left behind them at home. As to being homesick, they are so busy that they don't have very much time to be that way. But sometimes, when a dust storm comes up and they have to stay in their tents, they get time to think. And if you pass a tent and hear a young man sigh, it is a case of dollars to doughnuts that he is thinking about a—"
